Ramen

Written by : Ms. Sayo Watanabe

Have you ever heard "Ramen"?

Ramen is popular Japanese food in Japan. Not only that, but there are also many Ramen shops around the world.

Ramen is soup noodle. Mainly, made by noodle, soup, meat, and some topping. It looks like simple food, that history goes back very old.

In 1488, The first noodles which is "Keitaimen" were eaten in Japan.

In 1859, overseas food culture has flowed by opening of port. For that reason, Chinese noodle dishes, the roots of ramen, were introduced to Japan.

In 1971, 「Nissin CUP NOODLE」was born by Momofuku Ando. He invented instant noodle which can eat delicious Ramen if you have only boiled water. It was an innovative invention.

After that, Ramen culture has spread not only in Japan but all over the world and got a star in Michelin.

There are four types of ramen. It is soy sauce taste, Miso taste, salt taste, and Tonkotsu taste. Tonkotsu is take the soup stock from the pork bones. Ramen was born from this.

Besides, there are several types depending on the thickness of the noodles, the area, and the shop, and there are countless numbers.

And also, there are 『SHINYOKOHAMA RAUMEN MUSEUM』in Yokohama, Japan.

You can enjoy many local ramens, so please go when you come to Japan.

My favorite Ramen shop near our company is Oishiya.

There is only one type of ramen. However, that ramen is made with commitment.

You can feel basic soy sauce ramen at Oishiya.

Introduction about WinmaX

WinmaX is high performance brake pad brand of us.

In 1984, we are first manufactured and sold sports pads in Japan.

The Strength of this brand is in-house research and development and manufacturing of friction materials. We have cultivated since our establishment, thanks to that we propose the best friction materials for various situation. Not at all, there are many raw materials that affect the effectiveness of the brakes, raw materials for reinforcement, and those related to wear resistance. In addition, we are making eco-friendly products, for example, copper free and antimony free. Currently, products of this brand are active in various races not only in Japan but also in the world, such as WRC, Rally, and Drift.

This brand has some series of brake pad, it is ARMA series, itzz and itzz classic series, W series, and custom order. ARMA series is there are 4 types of lineups for street riding to racing. itzz series is No.1 share in Japan for Gymkhana, Dirt trial, and rally. itzz classic series is for classic car. W series is for motor sports for overseas only. About custom order, we will make the product you want to order.

In addition, we are supporting some drivers.

If you interested in WinmaX, please check website for more information.
