

JAPAN

SOBA

Written by : Mr. Takuro Suda

This month column MK NEWS is about SOBA in Japanese, or you can say Buckwheat noodles. I guess that almost all of you have ever heard about it, because now Japanese food is well known as the very healthy and many people have interest in Japanese food in world wide. And this is the very important thing that what I have to focus is that SOBA is the most health food among Japanese food. Firstly, SOBA would depress your blood glucose level after meal, as you know that most of meal you have usually would make your glucose level increased. Is this point beyond your thought ? Secondly, SOBA includes many nutrition, for example, Rutin Catechin Vitamin and huge Dietary fibers in it. These helps your body not to be old or helps to avoid virus and helps to avoid Arteriosclerosis.

As I explain about SOBA would be efficient for health, you have interest in what is SOBA made of. SOBA is made of grain like wheat or rice. When it comes to history for SOBA, SOBA appeared around 400 years ago. SOBA is strongly against drought and cold. And most important thing is that we have not to choose place to Cultivate. We can harvest stably even if bad harvest. And SOBA was the food that saved from famine people. Old people kneaded natural SOBA in many times When you are going to consider your health to be better, I recommend you SOBA.

Introduction for MKPI

MKPI formal name is PT MK PRIMA INDONESIA. They are our factory in Indonesia, firstly let me introduce from their history. They started in 1979 years, PT.Indoprime Gemilang signed a Technical Assistance Agreement with MK Kashiya Corporation from Nagano, Japan, for the manufacturing of automotive brake-shoe in Indonesia. In 1996, they Started producing asbestos-free brake-shoes and pads for the export market.

Comparing production quantity between japan and Indonesia, About 350,000 sets in Japan per year and about 3,200,000 sets in Indonesia per year. As mentioned above, MKPI is our most important partner to support world brake being in safe. Not only export for world wide, MKPI is providing Brake PAD and SHOE to their domestic under many car mar in Indonesia.

MK ITEM / INTERCHANGE NEWS

Valuable Information

■ Newly start Product at Japan Factory (Existing MK Item)

■ Newly start Product at Indonesia Factory (Existing MK Item)

D2140M / K2431 / K9999 are available in Indonesia from March order.

■ Newly start Products with SHIM (Existing MK Item)

MK No.	Origin	Quotation Month
D2193H	Made in Indonesia	March. 2022
D2202H	Made in Indonesia	March. 2022
D2242H	Made in Indonesia	March. 2022
D2281H	Made in Indonesia	March. 2022
D2374H	Made in Indonesia	March. 2022
D6085H	Made in Indonesia	March. 2022

Announcement

■ PRODUCT DRAWING CHANGES

I will inform you that there was a difference between the product and the drawing.

K4451 has a wear limited step on the side of the lining, but the drawing did not show this step.

With this change, the drawing has changed to show a wear limited step, and the difference was eliminated.

(Genuine products have the same specifications that has this step)

We have been changed the product drawing on paper catalog 2022-2023 version and online catalog.
